Game 1: Name Attention (read aloud)

"Hey friend! We are going to play Name Game. Say your dog's name once, in a happy voice. When they look at you -- even a tiny look -- smile and give a tiny treat. That is it. We practice for about two minutes."

Tips for grown-ups: one name only (no repeating like a siren). Treat arrives right after the look. If the dog is busy sniffing, wait for a quiet moment. Short and kind beats long and frustrated.

Game 2: Sit with Treat Timing

"Hold a treat near their nose. Move your hand slowly up and a little back. Many dogs sit as their head follows. The second their bottom touches the floor, say 'Sit' once and give the treat. We only practice two minutes."

Treat timing education: the treat marks the good moment. Late treats confuse the dog. Early treats skip the sit. Aim for "bottom down, then treat." No yanking, no yelling -- this is a game.

Practice Checklist (2 minutes)

- ☐ Name once -- look -- smile + tiny treat
- ☐ Sit lure -- bottom down -- say Sit once -- treat
- ☐ Stop while everyone is still happy
